

COMPLIANCE MOMENT #3  
( P G . 91 )

## PPE

### OBJECTIVES

---

- Identify the section in the OSHA 1926 standard that reviews eye and face protection
- Discover the appropriate eye and face protection to be used in different operations and for individuals requiring corrective lenses
- Understand the minimum requirements eye and face protection shall have

### GUIDANCE

---

Please locate and review the OSHA standard on eye and face protection and answer the questions below.

Be prepared to discuss these questions during class.

1. Cite the subpart and OSHA standard that reviews the eye and face protection for the construction industry.
2. Cite the subpart and OSHA standard that reviews the personal protection requirement for assessments in general industry
3. What type of eye and face protection shall be used when performing acetylene operations?
4. All eye and face protectors shall meet six minimum requirements. List them.
5. Locate the OSHA rule on employers paying for PPE in both construction and general industry.
